AMERICAN MARINES AGAIN DRIVE FORWARD ON MARNE BLOCKING COUNTER ATTACKS

Indications Are That Yankees Eliminated Germans on a Front of About a Mile

Marines Don Masks and Stop Huns 400 Yards From Trenches With Artillery Fire

ADJOINING UNIT ATTACKED

Boche Suffers Complete Repulse, However, Losing 100 Men—Gain at Torcy Held

(By United Press.)
Washington, June 8.—General Pershing personally directed the attack that resulted in the capture of Cantigny a few days ago, the war department announced today.

Washington, June 8.—The war department casualty list issued today, contains 108 names divided as follows: thirty killed in action, ten dead of wounds, six from disease, ten from accident and fifty-two wounded.

William Robbins, Bloomington, Indiana, and Charles A. Smith, Huntington, Ind., died of wounds.

With the American Army in France, June 8.—American marines and adjoining units again drove forward northwest of Chateau-Thierry today. German counter attacks were blocked by the American advance.

Artillery fire increased violently about four a. m. At that moment the right wing of the marine attacked in the south part of the wood. The attack has not been fully reported, although numerous prisoners have been sent back.

Indications are that the Americans eliminated the enemy north of the sunken road between Torcy and Belleau on a front of about a mile.

At 12:30 the enemy attempted to advance. Their attack was preceded by a barrage and clouds of poisonous smoke. The marines donned their gas masks and stopped them, 400 yards from the trenches, with artillery and rifle fire.

At the same time the Boche attacked an adjoining unit, losing a hundred men and suffering a complete repulse. The American loss was small.

An hour later the Germans attacked the marines who are holding the Bouresches. The marines, strengthened during the night, repulsed the enemy with sanguinary losses.

Earlier in the night the Americans attacked at the right of Torcy, advancing a third of a mile and holding their gain. The Americans found the ground covered with bodies of Germans. Here the Germans had dug in but were ousted.

There are evidences that the German elements are again receiving fresh reinforcements in an effort to hold the Americans.

Paris, June 8.—French troops, co-operating with the Americans northwest of Chateau-Thierry, continued to advance on the northern portion of that front, the French war office announced today.

Two violent German attacks on the southern portions of the line in that region were repulsed with heavy losses.

"South of the Ourcq the French progressed, pressing the Germans back," the statement said.

Fifty prisoners were taken.

With the British Army in France, June 8.—Hindenburg's third offensive is at a standstill. When and where he will begin his fourth is the

Reports Of U-Boats Seen Along Coast

Commander of Lightship Off Maine Sees German Submarine and Story Comes From Florida of Them Operating There—Count Von Reventlow Believes Hun U-Boat Offensive Will Compel America to Withdraw Naval Forces From Europe.

(By United Press.)
Biddeford, Maine, June 8.—The commander of the Lightship today reported a German submarine near his vessel. Several members of the Lightship crew saw the U-boat.

Coastwise craft in this vicinity have been ordered under heavy convoy.

Jacksonville, Fla., Jan. 8.—Enemy submarines are operating off the east coast of Florida, according to reports received here today.

The captain of a passenger steamer sought safety in a harbor near here last night, declaring he sighted a periscope off Mayport, Florida.

London, June 8.—Count von Reventlow, foremost German advocate of lightfulness, believes the submarine operation in the western Atlantic will force the United States to withdraw its chief naval forces to the defense of its coast and the German press sees in it a close connection with the west front offensive, to the possible torpedoing of American transports.

"This attack on America cannot fail as others have," the Cologne Gazette said.

"We can picture great successes as a result of this offensive against America. They have not had experience and they apparently have sent their best troops to Europe."

question occupying the allied commanders.

German prisoners all reflect the general opinion on the enemy's side of the line, that for Germany it is a question of do or die. Nobody can listen to their talk without realizing the utter folly of considering that the great offensive has spent itself.

TO INSPECT PRISONS

J. T. Arbuckle of this city, member of the state board of pardons will leave tomorrow for the quarterly inspection of the prisons at Michigan City and Jeffersonville. A meeting of the board to act on appeals for paroles will be held Wednesday, June 17 at the state house in Indianapolis, and previous to the meeting the board will make a tour of the various departments investigating the records of the prisoners who have appealed.

THREE WILL BE GRADUATED

Annual Exercises of St. Mary's School to be Held Wednesday

The exercises which will mark the close of St. Mary's Catholic school for the summer will be conducted Wednesday evening at eight o'clock in the church hall.

Three students, John Ryan, Aliene Geraghty and Helen Madden, will be graduated, and in addition to the commencement exercises, the program will consist of dialogues, musical numbers and readings in which all of the classes of the school will be represented. A piano recital will also be given by the students of the music department. The Rev. M. W. Lyons will present the diplomas to the graduates.

WOUND FROM REVOLVER SHOT IS FATAL TO BOY

Robert Allen Dies Shortly After 4:30 O'clock as Result of Shooting Himself in the Head

FUNERAL SUNDAY AFTERNOON

The bullet from the revolver which entered the temple of Robert Allen, twelve-year-old son of Mr. and Mrs. Harry C. Allen, yesterday afternoon proved fatal to the child and death resulted an hour and thirty minutes after the accident occurred.

Although an emergency operation was performed a few minutes after the shooting occurred—when the boy was playing at war and pulled the trigger of a loaded revolver which he placed at his temple—the surgeons were unable to locate the bullet which was lodged somewhere in his head and apparently pressed upon some vital organ. Following the explosion of the gun, the child did not regain consciousness and death occurred shortly after 4:30.

Aside from his parents, Mr. and Mrs. Harry C. Allen, the boy is survived by two younger brothers, Charles and Harold Allen, and his grandmother, Mrs. Belle Allen. The funeral services will be conducted tomorrow afternoon at the residence with burial in East Hill cemetery. The Rev. L. E. Brown, pastor of the Main Street Christian church, will officiate at the service.

SIX STARS IN ONE FAMILY SERVICE FLAG

Sons and Step-Sons of Mr. and Mrs. William Vansickle in Service, Five of Them Volunteers

ONE OF THEM IS IN FRANCE

In the home of Mr. and Mrs. William Vansickle of this city, there is displayed a service flag which tells the story of the supreme sacrifice which has been made in the offering of man power, completely breaking up the family circle.

The Vansickle service flag contains six stars for sons and stepsons in the largest family service flag in the county and contains stars for five volunteers and one selective, with five of the number in this country at the various training camps and the sixth, a Sammy serving under Pershing in France.

Audry Vansickle crossed the sea several weeks ago; Alva Vansickle is in training at Camp Shelby, Hattiesburg, Miss.; Dora Vansickle and John Weed are encamped at Oglethorpe, Ga.; Ralph Weed is stationed at Camp Taylor, and Charles E. Weed, one of Rush county's first volunteers with old company B, is a member of Battery A of the 139th field artillery at Camp Shelby.

Judge Sparks has returned a judgment of \$80.37 for the Standard Oil Co., against W. C. Reinheimer in the circuit court.

Ray Hunsinger, Mays.
Leslie Walker, Carthage.

The official list of the young men becoming 21 years of age since June 5, 1917, who registered for military service Wednesday, will be found on page 8.

The county army selection board today selected the necessary men to fill the quotas for the voluntary induction calls for Purdue university and Indianapolis. Two were listed for voluntary induction on the quota of three for Purdue and Edward P. Berry of this city was selected to make up the increment, which will leave here Friday, June 28.

Four were listed for the Indianapolis call and five had to be selected. Richard Power, Leslie Walker, Henry O. Cripe, Orville R. Kirkham, and Ray Hunsinger were the men picked by the board.

The last three named were listed some time ago for voluntary induction under the "Nation's Want Column," but had never been called. The board communicated with the state conscription agent by telephone at Indianapolis today and was informed that it would be all right to take these men on this call. These men leave Saturday, June 15.

The local board made it plain today none of the 120 men registering last Wednesday can enlist in any branch of the service or be inducted voluntarily under calls from the war department, at least for the present. The board received instructions today not to issue permits to any registrant of June 5 to enlist.

The board already was aware of the fact that the newest registrants could not be voluntarily inducted because all calls for voluntary induction, with one exception, have been for class one registrants qualified for general military service. The one exception was the call for limited service men.

One registrant Wednesday wanted to be taken on one of the voluntary induction calls and not register at all. Another registrant tried to get into the aviation corps before registration day, but was unable to do so. He had to register and now will have to wait until he is finally classified and examined physically.

Whether these registrants will be allowed to enlist after they have been classified and passed is not settled because the board has no instructions, but it is presumed they will have the same privileges as the first group of registrants.

Instead of serial numbers, the new registrants will have what will be known as registration numbers. The board has already given the registrants these numbers and the names

BOYS ARE GIVEN A LECTURE

Mayor Suspends Judgment on Youths Who Stole Strawberries

Five boys were arraigned before Mayor Irvin yesterday afternoon at four o'clock for stealing strawberries out of E. A. Lee's patch and Mayor Irvin suspended judgment in the case. He gave the boys a lecture and explained to them that if they were brought into court, they would not be dealt with leniently. The boys were: Glenn Downey, 18; Raymond Foster, 18; Wilbur Bennett, 16; Herschel Bates, 15; Paul Tyler, 12.

The case against Margaret Schaeffer, daughter of E. Schaeffer, for violating the motor vehicle law, which was set for trial yesterday, was postponed until four o'clock Monday afternoon.

WOULD-BE HEROES ARE DISAPPOINTED

Sprint to Box 21 From Which Fire Alarm Apparently Sounded—But Department Was Testing System

BOX 33 RINGING NUMBER 21

When the big fire alarm sounded a call from the vicinity of Ninth and Perkins street yesterday evening, Rushville people in the down town district at least enjoyed a good sprinting contest to the northern part of the city.

The employees at the fire department who were testing out the box at Third and Washington street were "wise" to the false call and despite the call of box 21, calmly "drove left" on their exit from the fire station who, believing the men had read the card up side down, made a dash for the box from which apparently the alarm had come, expecting doubtless to play the heroes in some rescuing party.

The members of the department, with little or no haste made their way to the west part of the city, adjusted the difficulty at the box so that when there is a fire at 33, the box will not sound 21, and returned to the station, where they found it necessary to explain their mission to the would-be heroes, returning from their fruitless search for fire.

The department made a practice run this morning to Box 24, corner of Sixth and Perkins, for the benefit of Will Leonard, representing the state fire marshal and state underwriters, who was here inspecting the department.

PRIZES TO BE GIVEN IN THE BABY CONTEST

Those Who Entered a Year Ago Will be Scored Wednesday to Decide Which Made Best Gain

FIVE PRIZES TO BE AWARDED

Babies who entered the better babies contest here a year ago will be scored again next Wednesday at the Graham high school building to determine the winners. Five prizes will be awarded—first and second for the best boy baby and first and second for the best girl baby; and one prize for best baby either boy or girl. The prizes are all cash and are offered by Rushville banks.

Cards have been sent to the mothers of sixty-five babies who entered the contest last year. The babies were scored at that time, and they will be scored again Wednesday to determine which ones made by biggest gains during the year. All mothers with babies between the ages of eight months and two years are invited to bring their children, but can not expect to be a contestant for any of the prizes unless their babies were scored a year ago.

COUNTY IS OVER TOP ONCE MORE

Passes Goal of \$50,000 in War Savings Stamps Campaign, Committee Announces Today

POSEY TOWNSHIP'S RECORD

Attention Now Turns to Drive to Raise Year's Quota—Canadian Speaks This Afternoon

Completing one of the most difficult campaigns waged in Rush county since war funds became necessary, reports which by far exceeded the expectations of the War Savings Stamp committee, were received today, putting the county far over the \$50,000 mark, which was the quota for the week.

Because of the conditions surrounding the campaign, the various other drives which had preceded the War Savings Stamp movement coupled with the already numerous stamp sales which had been made through the county, it was through sheer force of will on the part of the executive committee and the canvassers that the campaign was one of the most successful in the district.

Because the campaign was another feather in Rush county's cap of patriotic response, the enthusiasm which prevailed at the patriotic meeting this afternoon which was held in the court house square, when Sergeant Bissett of the Canadian Army delivered an address, knew no bounds and when the announcement was made that Rush county had gone over the top in such excellent form, in the closing Thrift stamp campaign, the interest of the people was awakened to such an extent that the members of the executive committee believe there will be little difficulty in putting the county over in the year's quota within the next month.

With the week's drive for \$50,000 put safely over, the eyes of the Thrift stamp workers have been turned to the National Thrift stamp day, June 28, on which day a special effort will be made throughout the country to sell stamps with more interest than during any day since the opening of the drive. In the sixth district of Indiana, it will be the object of every county, which has not already done so, to subscribe the entire year's quota.

One of the most surprising reports from any of the townships in the closing campaign came this morning from Posey township when an incomplete report showed a subscription of \$6,180.37. The district chairman stated that there was still one district to be heard from which would doubtless bring the subscription close to the seven thousand dollar mark. The Posey township stamp sale received a big increase yesterday afternoon when two one thousand dollar subscriptions were sold to Mr. and Mrs. John Nelson.

Sergeant Bissett arrived this morning in an automobile from Straughn, where he spoke last night. He was to speak at three o'clock on the lawn west of the courthouse. Arrangements were made for B. F. Miller to lead the audience in singing patriotic songs.

K. of C. INITIATION

The quarterly initiation of the Knights of Columbus will be held tomorrow afternoon in Anderson. Bert Madden of this city will be the only candidate from the territory under the supervision of the local council, and among those attending the meeting from Rushville will be John Geraghty, John Crawley, Mark Purcell and Martin Kelly. The work will be put on by the St. Wayne degree team.

A nine pound baby girl was born to the wife of E. F. Reardon, Wednesday, June 5. The child has been named, Alice Frances.

REO

All the Former Excellence Plus Many Refinements

THIS NEW REO LIGHT FOUR is, in all mechanical essentials, the same as its famous predecessor—Reo the Fifth, "The Incomparable Four."

THAT IS TO SAY, those principles of design and of construction which made that great Reo famous the world over for dependability and low upkeep, have all been retained.

WHEN YOU CONSIDER that that Reo Four remained standard in practically the same form for eight seasons (longer than any other automobile ever built save one);

IT MUST HAVE BEEN wonderfully right at every point; must have been. For during those years an host of rivals and imitators came and went.

AND ALWAYS REO maintained its supremacy.

SO WE FEEL that the best possible recommend for this latest Reo—the New Light Four—is to say that all those principles of design and that same quality have been retained.

REFINEMENTS have been made at many points however.

WE PREFER THE TERM "refinements" rather than improvements. For, truth to tell, no owner of a Reo Four could suggest an improvement in that great car.

REO ENGINEERS, at the same time the most experienced and the most progressive, are always seeking opportunities to refine details of Reos.

AND THEY FOUND WAYS to make parts of this chassis, always the most accessible ever built, still more accessible.

ALSO MORE POWER has been developed in the same motor by refinements of valve mechanism; better balance of reciprocating parts.

THE OILING SYSTEM has not been improved—no use trying to improve on what was already perfection.

ODDLY ENOUGH when we begin to talk about this New Reo Light Four, we feel an inclination to emphasize rather those features in which no changes have been made, than those where they have!

SUCH WAS THE QUALITY—such the dependability—such the low upkeep—such the satisfaction of 100,000 owners, that a better could be made only by refining details of the original model.

AND THIS ONE IS BETTER only because it is the latest, the most refined edition of that Reo Four.

WE WILL BE PLEASED to show and explain to you the points wherein these refinements have been effected—and tell you the reason for each.

IN A WORD, for your convenience—in every case. For still greater accessibility. For still longer life. And for still lower cost of upkeep.

ASK US about these things.

WHEN YOU SEE THIS REO you will say the body lines, the finish, the upholstery are the finest Reo has ever turned out.

A LUXURIOUS EQUIPAGE; as handsome in appearance as it is excellent mechanically; yet at a price less than you had planned to pay for such a car.

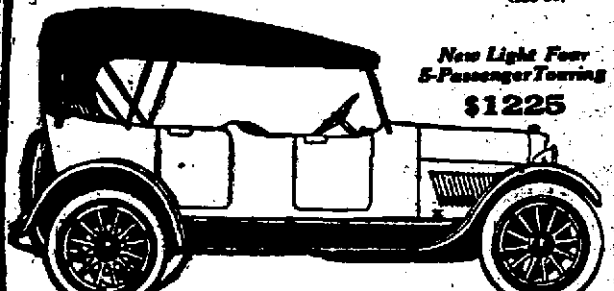

DEMAND SEEMS unlimited. At present, almost hopelessly in excess of factory output.

SO ONLY THOSE who decide now and order at once can hope to obtain a Reo Light Four for spring delivery.

TODAY won't be a minute too soon.

SCOUTS ABANDON SUMMER EXCURSION

Three Troops Will Help Relieve Labor Shortage and Otherwise Assist in Winning War

MANY TAKE CARE OF GARDENS

Rushville's three Boy Scout troops are planning an intensive campaign during the vacation months by which they will relieve to a great extent the shortage of labor on farms as well as in the city.

In co-operation with the request from general headquarters the local troops have abandoned plans for a camping trip which has been the feature of their summer vacation in former years and will put their shoulders to the wheel in true Scout fashion to assist in relieving the labor conditions in Rush county. Many of the boys are taking care of gardens in and about the city which takes most of their time and would prohibit them entering into any pleasure trips. The camping excursion was also abandoned as a conservation measure as the amount of food consumed during the week the boys spend out of doors is a big item in the conservation program.

MEN TRANSFERRED TO FORT SHERIDAN

Sixteen Selectives Who Left Here May 24 For Columbus Barracks Sent to Michigan

ARE ON SHORES OF THE LAKE

The sixteen selectives leaving here Friday, May 24, for Columbus Barracks, Ohio, have been transferred to Fort Sheridan, Illinois, according to word received here. They remained at Columbus Barracks only four days, having arrived at Fort Sheridan last Wednesday. They were issued uniforms before they left Columbus Barracks.

"The eats are very good here," says a letter from one of the men in the increment. "We sleep eight in a tent. We are in quarantine for fourteen days and do not get to see much. We drill about eight hours a day. The nights are very cool on account of the fort being on the shores of Lake Michigan. The boys all seem to enjoy themselves. The fort is located on a very beautiful site about 25 miles from Chicago." The Rush county men who left here May 24 have been assigned to the 40th Infantry.

of registrants appear in that order on page 8 today. The method of giving the new registrants their order numbers, by which they are subject to call, has not been made public and will not be until all local boards have reported their registration numbers to the war department.

The local board received a form letter from the district board, this morning, which is designed to overcome some of the difficulties found in filling out questionnaires of the first group of registrants. The trouble mostly was with answers to questions filled out by farmers.

"Every registrant should be made to understand," says the district board, "that the answer to question 19 should be gross proceeds, not net proceeds—i. e., the registrant should estimate the entire production of the farm in bushels of wheat etc., then deduct the amount used by the people living on the farm, convert the remainder into terms of money and give that as the answer to question 19."

"As to the answer to question 18b we should like to have the number of men working on the farm."

"In answer to question 23, if the registrant's father is living, he should give his father's age and state of health, and if the father is not well, he should furnish a doctor's affidavit to that effect."

Fred Jiggs, a conscript who was recently sent to Camp Taylor, has been transferred to Camp Greenleaf at the C. & W. depot late yesterday afternoon. He has been assigned to the motor ambulance department, company 35.

You Can Fool Yourself But Not Your Battery

You may think you added enough distilled water, and still be mistaken.

You may waste current and never realize it.

You may be using the headlights too much and charging the battery too little.

But your battery writes the real story as it goes along.

That's why you ought to stop to-

day and have a test made—to see whether you have been fooling yourself or not. And ask about the Still Better Willard with Threaded Rubber Insulation.

This is the only battery with the "Bone Dry" principle that is your absolute assurance of getting a battery as new as the day it left the factory.

Who Began Trench Warfare?

THE trench, which always encircled the Roman castra, or camp, was brought to France by Julius Caesar and used by him on the very battlefield where to-day the Allies and the Huns have 25,000 miles of trenches.

With rings of trenches, gradually drawn smaller, probably the first modern trench warfare, the Turks in 1667 took Candia.

Vauban, builder of Verdun, in 1673 employed the first parallel trenches, the system of the present war.

Defeat, not foresight, turned the Germans to trench warfare. But Goodrich never had to dig in.

Since twenty-two years ago Goodrich manufactured the first American pneumatic automobile tire, Goodrich has driven ahead to the big, graceful, masterful—

GOODRICH SERVICE VALUE TIRES

But whether Goodrich was revolutionizing tire manufacture by bringing forth the first American clincher tire—

Or originating the one practical non-skid, the cross-bar, safety-tread, or tough black tread rubber—

The House Divided

"A house divided against itself can not stand."
The words are true in all ages and with all peoples.
That failure will invariably follow disunion is as certain as that success results from unity of purpose and action.
Fortunate indeed is that town that is blessed with a citizenship that can come together as a unit whenever the town's interests call. It argues well for the breadth of mind of its citizens that they can see beyond their purely personal affairs and catch a view of prosperity in the large.

But the real cause of disunion in the average town is not that its citizens are so deeply engrossed in their own personal affairs, but that one is jealous of another. Not only this, but each is really willing to forego any advancement if by so doing the other may be thwarted.

This is a deplorable state for any town to fall into. It is sure death to all progress, and not only that, but is invariably the direct cause of that town being left behind in the march of progress.

We are well aware that communities have their factions and their divisions of sentiment and interests. We are equally certain that this fact need in no wise deter the town from seizing every opportunity to further its interests in every available way. If men could once be brought to see that by thwarting the interests of the town through their opposition to a faction, they were injuring themselves vastly more than they were injuring their community, surely they would take a different view of things.

The man who deliberately stands in the way of his community's progress is disloyal. Just now this word has an ugly sound, but we can use no other, because no others so well fits the offense. Placed in broader circumstances, the offense would be magnified. No man's personal interest and no man's personal animosities can for a moment weigh in the scale with the welfare of his community, and the man who permits them to do so is as truly disloyal as the man who deliberately plots against his country in the large. There is a difference only in the magnitude of the offense.

Fortunate indeed is that town which, when any move affecting the general welfare is being considered, can drop its factional disputes and put a united shoulder to the wheel.

Hard Work For Women

It is a question if women doing men's work deserve particular sympathy, for it is doubtful if there is any work that is harder than everyday housework. Overwork tells on the kidneys and when the kidneys are affected one looks and feels older than the actual years. Mrs. A. G. Wells, R. R. 5, Rocky Mount, N. C., writes: "I cannot praise Foley Kidney Pills enough for the wonderful benefit I have derived from their use for a short while." F. B. Johnson, Adv.

ARRANGEMENTS MADE FOR THE COUNTY DRIVE

Prof. Schwab of Lafayette Will Assist in The Local Silo Campaign
June 13-14

137 SILOS ARE TO BE ERECTED

On June 13 and 14, the days set aside for the silo drive in Rush county, an intensive campaign will be carried on in every part of the county under the direction of the county campaign leader, William A. Alexander.

Professor J. W. Schwab of Lafayette, Ind., will assist in the campaign and at the meetings which will be held during the two days at the large silos through the county, will deliver addresses on the various methods of using silos and their advantage in saving feed and producing stock on a larger scale.

During Thursday, the first day of the campaign, the northern part of the county will be visited and on the second day, the southern portion will be covered. Farmers who have automobiles which might be at the disposal of the flying squadron, are asked to get in touch with Marion Detrick, county agent, as a large number of farmers wish to make the trip inspecting various kinds of silos which are to be found in the county.

Rush county's allotment of silos to be erected as the result of the approaching campaign has been placed at 137.

STUDENTS OBSERVE TOTAL SUN ECLIPSE

The Main Object of the Party Making Observations from Colorado Is to Take Photographs

USE TELESCOPE 60 FT. LONG

Bloomington, Ind., June 8.—Indiana university today had a party of astronomers at Brandon, Col., to observe the total eclipse of the sun.

The university acting with Swarthmore and Lowell, believed that much valuable information might be gathered from observation of the total eclipse. The local party was composed of Prof. W. A. Cogshall, head of the astronomy department, and Lawrence Wheeler. Their main business will be to take photographs of the phenomenon.

A telescope sixty feet in length was used. They have been in Colorado a month, preparing the field for the work. The eclipse was to be total one minute and twenty-eight seconds.

The last time Indiana sent out such a delegation was in 1906 when in conjunction with other universities, a party was sent to Spain to observe the last total eclipse.

in the public interest.

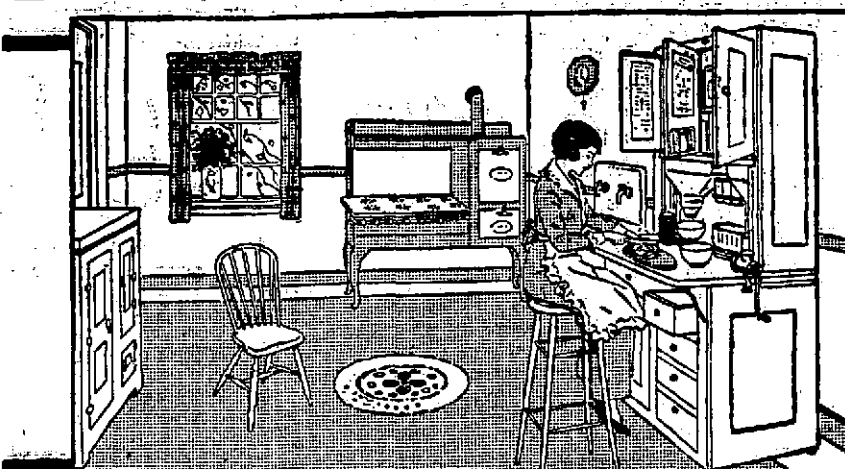

No man has the right to inflict his personal grievances on his community and compel it to suffer because of his own sore toe. Yet this is just what he does when he is not willing to join in with "the other side" in every matter that is patently for the advancement of the community interest.

We have said that all towns have factions. Towns will always have them. This does not mean that the town's progress is retarded by them. In many cases the factions serve but to stimulate rivalry in achievement. Where this is the case they are beneficial.

A wholesome slogan for any town would be: "Go after an opportunity and land it; then if we must scrap, let it be over a division of the spoils."

Hoosier Cabinets Save Walking 2 Miles a Day

The Celebrated
HOOISIER

Kitchen Cabinet

Only 29 To Be Sold

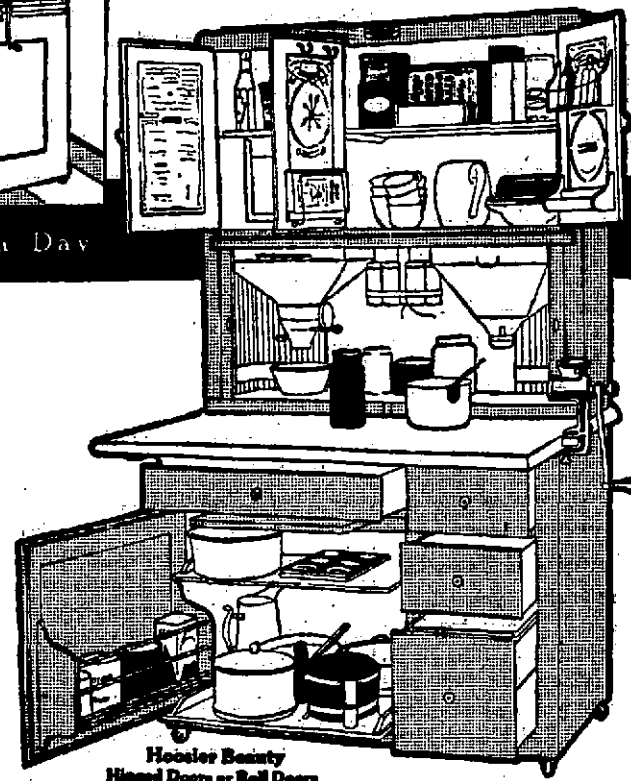

The Hoosier Company has just served us with notice of a general raise in the price of Hoosier cabinets, wholesale and retail. We have exactly 29 Hoosier Cabinets in stock which we bought at the old-time price. We could put the new price on them and make an extra profit on every one.

But instead of that, we are going to give our customers this unexpected saving. We have lined up our entire stock of Hoosiers to go on sale tomorrow at the old low price!

Special Terms of Sale

At these special low prices no cabinets will be charged, however, upon a deposit payment we will store your selection and deliver when you wish. Your money back if you are not delighted. Sale ends the instant 29 Hoosiers are gone.

Because it is the largest and strongest maker of cabinets in the world, the Hoosier Company has been able to the last to keep its price down. Rising costs of labor and raw material have finally forced the maker to announce a general raise. But even at the increased prices, no other cabinet will be able to compete with Hoosier values. At the old low prices, we offer in this sale—there's never been a bargain to equal them. Come early — be one of the lucky twenty-nine.

Hoosier Beauty Hinged Doors or Rail Doors

The Life-Time Helper That Every Woman Needs

Hoosier Kitchen Cabinet is a Labor-Saving machine, Kitchen System and Germ-proof Food Container combined.

It saves steps, food and work. It gives you time for Red Cross Knitting and other war work.

Mrs. Frank Ambler Pattison, the noted Domestic Efficiency Engineer, found that it saves walking an average of 2 miles a day.

The Shaker, Flour Sifter sifts flour four times faster than most.

The Over-Size Base has 20 per cent more spaces for pots, pans, etc.

The Two-Way Sugar Bin holds twice the ordinary amount.

The Revolving Rack of 7 Air-Tight, Dust-Proof Spice Jars is also exclusive.

The Motion-Saver Arrangement is the result of scientific motion study.

The Uncluttered Capboard gives twice the average work-space.

All features have the certified approval of the Hoosier Council of Kitchen Scientists composed of leading household authorities.

Oldsmobile Eight Cylinder Touring Car

The Eight Cylinder Oldsmobile occupies distinctly a place of its own in the ranks of motor cars. Attractive in design, remarkable for completeness of appointments and refinement of finish, it combines unusual power with ease of operation and economy of maintenance. These with many more good qualities assures the owner satisfaction far out of proportion to the moderate investment. Such a car will be a source of happiness, service and pride for many years.

Strive To Have Healthy Skin

Next time you are in a gathering of women note the different conditions apparent in complexion. You will see some filled with blackheads, some dry and rough, some smooth and greasy, some smeared with rouge, some streaked with heavy metallic powders and once in a while you will see one that is a demonstration of intelligence from every point of view. The color is rosy, the skin is clear and smooth, the pores are small and open, the powder does not show on the firm vigorous skin. Every woman can have a good complexion if she will only use a little discretion. If you would acquire real beauty, the beauty of perfect health, you must replace your worn-out nerves with leeches. Nature's own nerve restorer, and put into your blood the invigorating iron which Nature intended it to have for health. In most of the modern foods there are other vitalizing elements have been largely eliminated. Yet to be healthy and beautiful the system must have them. They are found in Bio-feron, not only in proper proportions to restore weakened vitality but in such form as the system can best assimilate them.

A treatment of leeches and iron supplements as combined in Bio-feron increases the appetite, aids nutrition and invigorates the patient.

Even discoloration of the face, no unpleasant taste. There is no secret or mystery about Bio-feron. Doctors prescribe it regularly because they know exactly what it contains and what it will do and they know they could not formulate a better building tonic. The action of Bio-feron on the system is so beneficial, we are so sure of its giving you positive health and vigor, providing of course there is no serious chronic ailment such as cancer, tuberculosis, etc. that we only sell it on the condition that you agree to return the empty package and accept a refund of your money unless you are entirely satisfied. There is no use waiting for health and beauty. It is better to do things today than tomorrow. Go to your physician today—right now—He will advise Bio-feron. Then start taking it at once as he advises or as directions on the package call for. The guarantee protects your money. Descriptive booklet may be had for the asking. Large package \$1.50 at all leading druggists or direct if your druggist can not supply you. The National Remedies Co. Inc., Cincinnati, Ohio.

BROWN BROS. GROCERIES

One of the pretty parties of the week for summer visitors, was given at the home of Mr. and Mrs. D. C. Compton in North Main street, last night, when their daughter, Miss Lavinia Compton entertained, honoring her house guest, Miss Katherine King of Franklin. Myriads of pink roses and various kinds of greenery transformed the rooms of the home into a veritable flower garden, and the predominating color note of pink and white was also evident in the dainty refreshments served by the hostess, who was assisted by Miss Margaret King and Miss Jean Herkless. The guests included the following: Miss Helen Thomas, Miss Jean Sparks, Miss Janet Dean, Miss Mary Louise Wentt, Miss Elizabeth Pierson, Miss Phyllis Casady, Miss Brenda Kinsinger, Miss Leatha Higgins and Miss Marguerite Kelly and Howard Stiers, Franklin Norris, Earl Morton, Richard Pugh, Halbert Brown, Lotus Gartin, Conwell Smith, Walter Stevens, Harold Miller, Merle Winkler and Elvas McKee of Milroy.

Many pretty social functions are being given in honor of Miss Marion Wilder of Orland, Ind., the house guest of the Misses Florine and Beth

Gronier, in North Main street. One of these delightful affairs, was the dinner party given by Miss Ruth Spivey at her home in North Jackson street, last night. A large bouquet of pink roses in plateau effect, centered the table and the color scheme of pink and white was carried out in the ices and the dainty place cards, which marked the places for the twelve guests. The same party motored to McCoy park at Greensburg Friday afternoon. Miss Mary Williams will also entertain for Miss Wilder tonight at her country home west of the city.

The Ben Davis Missionary society met at the home of Mrs. Walter Gray, Thursday afternoon, in a business session, during which officers for the coming year were elected as follows: Mrs. Leona Rees, president, Mrs. Helen Kirkwood, vice-president, Mrs. Claude Hurst, secretary; Mrs. Ethel Gray, assistant secretary; Mrs. Will H. Gray, treasurer and Mrs. Laura Daubenspeck, assistant treasurer.

Miss Bertha Helm will entertain the members of the S. E. T. club Tuesday afternoon at her home in West Fifth street.

Red Cross Sends Out S. O. S. Call

Asks Co-operation of All Women in County in Completing Quota of War Relief Garments—Cutting and Sewing Departments Are in Full Swing of Work.

Because of the large shipment of garments for the Italian and French relief which must be completed by the first part of August, the heads of the sewing and cutting departments in the Red Cross headquarters here have sent out an S. O. S. call to the workers in the two departments.

With the closing of the surgical dressing department sometime ago, numerous workers in the other departments thought the order included the sewers and cutters as well, and as a result the attendance has fallen off to a certain extent during the past week. Because hundreds of garments, including men's underclothing and children's pinafores, have been named as Rush county's quota on the shipment, it is imperative that the full force in both the cutting and sewing departments spend as much time as possible at the headquarters until the work has been finished.

Although the material for the making of the men's underclothing was not on hand and some delay was caused in securing a shipment, an amount of black sateen, from which the pinafores are made, is in the stock room of the headquarters, on which the women began working as soon as the appeal of the relief committee was received.

Announcement of the wedding of Miss Helen Mack of Seymour and Ernest Elder of Greensburg, has been received here by friends of the bridegroom who is well known in this city. The wedding took place Wednesday evening at the home of the bride's parents.

NOTICE TO NON-RESIDENT.

The State of Indiana, Rush County, In the Rush Circuit Court, May Term, 1918.

William L. Newbold vs. Louis Holtman, et al.

Complaint No. 1576.

Now comes the plaintiff, by Morgan & Keichum, his attorneys, and files his complaint herein, together with an affidavit of said plaintiff stating that said defendant, Louis Holtman is not a resident of the State of Indiana; that said action is a complaint on account for services; demand \$200.00 and proceedings in attachment and garnishment and that said non-resident defendant is a necessary party thereto.

Notice is therefore hereby given said defendant last named, that unless he be and appear on the first day of the next term of the Rush Circuit Court, to be holden on the 1st Monday of September, A. D., 1918, at the Court House in Rushville, in said County and State, and answer or demur to said complaint, the same will be heard and determined in his absence.

Witness my name and the Seal of said Court, affixed at the City of Rushville, Indiana, this 8th day of June, A. D. 1918.

A PUFF AND A BLOW.

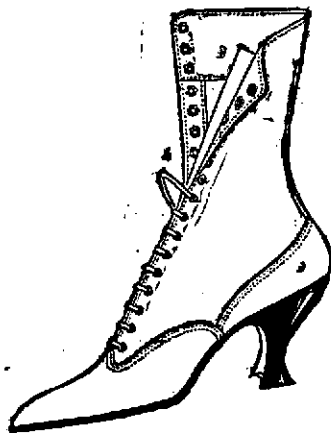

In a Little While a Pain. Same Misery. No Relief Till Pepsinco is Found. Moral—Keep Pepsinco on the Table and Take After the Meal.

Pepsinco never fails to give almost instant relief in indigestion, dyspepsia, sour stomach, bloating, sick headache. Thousands of satisfied users will vouch for Pepsinco, simply because it is always ready.

Pepsinco acts quickly and is safe and sure. It digests perfectly all that is eaten. The stomach is a peculiar organ. It will not allow an overdoing. It cries out when it is worked too hard. It sends a wireless for help and it behooves every one to watch for the sign.

Mr. R. said: "I wouldn't be without Pepsinco, if it costs ten times what it does." He said it keeps him well. Many persons say the same. Pepsinco is a true friend. It is guaranteed to help in every instance when the stomach bothers. All druggists recommend it and sell lots of it.

**HAVE ROSY CHEEKS
AND FEEL FRESH AS
A DAISY—TRY THIS!**

Says glass of hot water with
phosphate before breakfast
washes out poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside-bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside-bathing will have them both looking and feeling better in every way.

**Catarrh of Stomach
Did Not Know It**

Mrs. Selena Tanner, Athens, Ohio, writes: "I cannot find words to express my thanks for your kind advice. I never once thought I had catarrh of the stomach. I commenced taking Peruna, as you directed. My stomach continued to hurt me for about two weeks after I began the medicine, and then it stopped. I now have a good appetite, while before I was nearly starved."

Those who object to liquid medicines can procure Peruna Tablets.
